All my photos are sold as “downloads”. That means after you have picked and purchased one or more photos, the website will immediately provide a link for you to download the high resolution .jpg file(s). You may then use the files to post on social media, share with friends/family or to make beautiful prints at a local or online lab.

Purchase Options

Single Download - Original: \$20 each.

Each photo has been carefully cropped and processed for maximum impact and clarity. (“Original” means highest resolution)

Gallery Download - Original: \$250 each.

If you want to purchase an entire gallery, pick any photo and click the “Gallery Download” button in the shopping cart for a deep discount. For example, purchase of a complete gallery with 50 images would reduce the per-photo cost to only \$5.00. (Note: the files are relatively large so I recommend using a computer, not your phone, for this operation)

20 Plus Discount: \$10 ea.

If you’ve identified **20 or more** photos from **one or several galleries**, send me a list of gallery names along with the file number of each photo within those galleries. (File numbers, such as: KCC-3388, are displayed over each thumbnail preview and each enlargement if you “Close” the “Buy this Photo” box on the upper/left-hand side of the screen). I will manually assemble your set of files and email them to you via a service called “WeTransfer”. Once you get them, simply use the PayPal link located at the bottom of every page on my website to complete the transaction. (I’ll need a reliable email address) Feel free to call or text with questions.
